About Bangor University

Established in 1884, Bangor University combines traditional academic excellence with cutting-edge research and facilities.

Bangor University has achieved a Gold Award in the 2017 Teaching Excellence Framework (TEF), ranked in the top 100 universities in the world for its international outlook and rated in the top 12 in the UK for student experience.

Bangor was one of the first universities in the UK to offer degrees in banking and the first to offer a banking MBA. Bangor's interest in banking goes back to the days of the famous country banker, George Rae, who in 1902 endowed a public lecture series in banking at Bangor that attracted some of the leading thinkers and practitioners of the day.

Bangor was also one of the first UK universities to be designated a Centre of Excellence by the Chartered Banker Institute.

Chartered Banker

About the Institute

Established in 1875, the Chartered Banker Institute is the oldest professional banking body in the world, and the only one which is able to confer the professional designation of Chartered Banker - a mark of quality in the banking profession, recognised in the UK and internationally. It is a status that demonstrates expertise, experience and professionalism, and acts as a gateway to enhanced career opportunities.

The Chartered Banker Institute's strategic purpose is to lead the re-professionalisation of UK banking, and to play a significant role in re-professionalising banking internationally, contributing through this to rebuilding confidence and trust in banks and bankers, and restoring pride in the banking profession.

The Institute is known for leading and driving an agenda of ethical professionalism; promoting professional standards for bankers, providing professional and regulatory qualifications for retail, commercial and private bankers in the UK and overseas.

Enhancing their leadership in driving an agenda of ethical professionalism, the Institute established in 2008, the Chartered Banker Professional Standards Board (CB:PSB), which now has over 187,000 individuals meeting its first standard, the Foundation Standard for Professional Bankers.

The Institute's work as a professional membership body for bankers complements and supports the work of regulators and banks and supports, and shapes the development, of individuals, institutions and the banking sector.

The Chartered Banker Institute aims to lead the future of banking. It helps banks and bankers, globally to develop, demonstrate and embed professional ethics, expertise, conduct and a professional culture. Attributes all expected and demanded by banks, bankers, customers and communities.
